

## CWSF 2017 Ambassadors Announced

Tue, 2017-02-21 18:46 -- Dominic Tremblay

*UPDATE (March 29): We are pleased to welcome Mary-Lou Angidlik from Cambridge Bay, Nunavut, who will be joining the Ambassador team at CWSF 2017. Mary-Lou represented the Kivalliq region as a finalist at CWSF 2007 and 2011. She will be using her Ambassador experience as part of her practicum in the Social Service Worker program at Nunavut Arctic College.*

Youth Science Canada is pleased to announce the 6 alumni who have been selected to serve as Ambassadors at CWSF 2017 in Regina - the result of a highly competitive process involving 31 applicants. The CWSF Ambassadors are former CWSF finalists who have graduated from secondary school and who will interact with students and chaperones throughout the week. Finalists annually rate the Ambassadors as being one of most impactful elements of their CWSF experience. We look forward to this year's Ambassadors helping us to deliver Canada's premiere youth science event.

Daniel O'Neil from Ontario will coordinate the team of Ambassadors at CWSF 2017.
